

# EdgeRack™

## Retail and Stores

At locations with smaller spaces dedicated to IT equipment, such as schools or retail stores, it is important that this space is utilized to its fullest potential. Being able to successfully operate your equipment is essential.

### SOLUTION

The Enconnex EdgeRack Cabinet is the perfect solution for small to medium offices, retail outlets, educational institutions, and remote edge computing locations. This smart cabinet is ready to house your IT equipment with a built-in cooling unit as well as power options.

### EDGERACK CABINET BENEFITS

#### Innovation

- All-In-One smart cabinet solution
- Small footprint

#### Security

- Keylock on front and rear door

#### Cooling

- Built-in 5kW RCU cooling unit

The EdgeRack by Enconnex is a fully self-contained unit, with a rack-mounted system designed to cool up to 5kW of compute power in a 10U top-of-rack footprint. The system is ready to deploy your IT equipment, and is ideal for areas where space is limited. The EdgeRack is the perfect solution for your IT needs, with sound dampening material, plexiglass front and rear doors. This all-in-one self contained system can be installed in almost every environment.
