Blanking Panels

Airflow management and heat mitigation are two major concerns in every data center. The best way to ensure cabinets are providing the best possible heat mitigation is to block off any unused cabinet spaces with blanking panels. The Enconnex Blanking Panels are designed to provide our customers with a low cost, high quality airflow management solution.

APPLICATION

- Exceptional for use in conjunction with the Enconnex RCU 5kW rack cooling system
- Low-density applications where there are extra spaces in the front of a cabinet
- Any application where airflow and heat mitigation are a concern

PRODUCT FEATURES

- Engineered from high-quality, rigid plastic
- Tooless snap in design makes installation quick and easy
- Designed to work with any standard 19" cabinet
