[sales@enconnex.com](mailto:sales@enconnex.com)

The Enconnex Power Cords are most commonly used between a device and a PDU mounted in a rack or a cabinet. These power cords can connect directly to standard outlets, a compatible UPS or PDU with AC outlets. In data center environments Enconnex power cords can be made with lengths in mind to keep excess cabling to a minimum, avoid contact with Ethernet cables which eliminates cross talk and reduces risk of accidental power loss.

## PRODUCT FEATURES

- Available in multiple lengths
- C14 and C19 Connectors

## PRODUCT SPECIFICATIONS

- Offered in 16 AWG
- Standard black, custom colors optional
- UL rated

## PHYSICAL SPECIFICATIONS

Physical	Specs
Cable Type	Round(SJT)
Connector Type 1	C14
Connector Type 2	C19
AWG	16 AWG
Jacket Type	PVC
Available Lengths	1ft, 2ft, 3ft, 5ft, 6ft, 8ft, 10ft and 15ft
Safety Compliance	UL/CUL
Environmental Compliance	RoHS

# Part Number Matrix (Enconnex Power Cords)

## ORDERING INFORMATION

Use the part number matrix below to configure Enconnex Copper Cables. Choose 1) CAT Type, 2) Color, 3) Length.  
 Example Part Number: ECX-C13C14-18AWG-0.5FT or ECX-C20C13-14AWG-3FT-90L
