Vertical Exhaust Duct - Chimney Passthrough

SKU#: ECX-VED8-CABEXT

The Enconnex VED Chimney Passthrough is designed to attach to the top of an 800mm wide server cabinet connecting the roof to the VED Extension piece while allowing cable passthrough.

PRODUCT FEATURES

- Easy toolless adjustment
- Effectively enables hot air exhaust to be expelled through overhead cooling systems
- Seemlessly mounts to top of cabinet and below Vertical Exhaust Ducts
- Brush strip passthroughs allow for cable entry and exit at the top of the cabinet
