sales@enconnex.com

The Enconnex FW Series server cabinet is the ultimate solution designed and engineered for demanding data center environments.

PRODUCT FEATURES

- Solid tube steel construction provides some of the best load ratings in the industry
- Flash PDU mounting rail design makes server maintenance quick and easy
- Quad side panel design makes accessing the side of your equipment convenient
- Standard no-doors design allows for maximum access while reducing footprint
- Modular roof panel with large cable pass-through for oversized cable bundles
- Adjustable equipment rails with numbered labeling on both sides
- 3" casters make rolling a loaded cabinet smooth and simple

PRODUCT BENEFITS

- Engineered to make equipment installation simple
- No-door design allows for better access and a smaller footprint
- Can be easily bundled with containment options to create hot/cold aisle solution
- Full range of accessories to meet your airflow and cable management needs

INCLUDED EQUIPMENT

- Solid tube steel, six post open frame
- Dual side panels (4 per complete cabinet)
- Optional perforated doors are available
- Modular roof with snap-in grommets
- Equipment mounting rails, adjustable, with hardware
- Two(2) PDU mounting bars at rear side of the cabinet
- Leveling feet and 3" high performance casters
- Two (2) adjustable cable management bars

SEISMIC SPECIFICATIONS

Standard Cabinet Our standard cabinet can be configured with a Zone 4 mounting kit and bayin kit to meet current Zone 4 compliancy in seismic areas.

Seismic Cabinet Our seismic cabinets are engineered to meet current GR-63-CORE, NEBS seismic standards. These cabinets are manufactured with a welded design to ensure structural rigity in seismic areas.

PRODUCT SPECIFICATIONS

Cabinet Style	Floor Standing
