 sales@enconnex.com

The Enconnex Inner Bracket Kit bolts to the cabinet, allowing customers to secure the cabinet to the floor for extra support. This product is good for taller enclosures or for shipping cabinets full of equipment. Not a seismic mount.

APPLICATION

- Any environment where securing your cabinets is required.

PRODUCT FEATURES

- Rigid steel construction
- Designed to integrate with the Enconnex line of cabinet systems
- Works for cabinets with or without casters (2 options)
