The Enconnex LC-LC Uni-Boot Multimode OM3 patch cords are manufactured and tested to the highest quality standards. This patchcord is an OM3 “Aqua” laser-optimized, multimode cable with a 50  $\mu\text{m}$  core and 125  $\mu\text{m}$  cladding diameter. All Enconnex patch cords include a test report and are assigned a unique serial number for traceability.

## PRODUCT FEATURES

- “Round Duplex” cable allows transmission within a single 2.0mm jacket fiber
- Reduce cassettes and cable management space by up to 70% comparing to standard LC patch cords
- Improve airflow and visibility of equipment within a high density network environment
- Easy polarity switching in the field and without the use of any tools
- Pull tab design solves the problem of finger access in high density cabling setup
- Available in Single Mode, Multi-Mode OM3 & OM4
- Available in different lengths and colors
