

Side Panel Kit

www.enconnex.com

sales@enconnex.com

The Enconnex Side Panel Kit includes all hardware necessary to turn your four-post open-frame cabinet into a true enclosure. Two half-length panels per side allow for easier installation and removal. Each panel also comes with an easy-to-use locking latch.

APPLICATION

- Enconnex data center cabinets where sides are needed for security or airflow purposes.

PRODUCT FEATURES

- Solid steel construction
- Multi-panel format
- Two panels per side for easier installation and removal
- Locking-latch system for ease of use and security
