Environmental	RoHS

KEY BENEFITS

HIGH QUALITY

All Enconnex power cords are manufactured and tested to the highest quality standards to ensure optimal performance and value.

100% CERTIFIED

All Enconnex power cords are 100% certified and compliant with UL and RoHS standards.

CUSTOMIZABLE

With many options available, our power cords can be customized to meet your data center needs.

ROUTINELY STOCKED

We keep our power cords stocked to ensure we can ship them to you as quickly as possible.

UNBEATABLE PRICE

Our power cords are competitively priced. No other company can beat our quality for the same price.

OUR POWER CORDS

Enconnex offers a wide selection of power cords varying in lengths, colors, and plug types. Choose from either environmentally-friendly and flexible TPE or traditional, durable PVC jacket materials. All Enconnex power cords are manufactured and tested to the highest quality standards to ensure optimal performance and value.
