

Reach Green Energy Goals Faster

BECAUSE LEAD IS DEAD.

POWER EFFICIENT

The AC6000 contains a highly efficient Line-Interactive topology allowing customers to decrease their overall energy use.

ZERO LEAD WASTE

The AC6000 is powered by Lithium-Ion battery technology and does not use harmful lead-acid batteries.

CREATES LESS WASTE

Lithium-Ion battery technology lasts up to 3X longer than traditional lead-acid batteries creating less waste

PRODUCED WITH FEWER FOSSIL FUELS

The AC6000 is up to 75% smaller and lighter than traditional VRLA (Lead Acid) UPS solutions. Minimizing the amount of energy needed to produce and transport this product.
