

Bring us your toughest technological challenges.

The world's biggest companies trust us to deliver the right solutions.

Enconnex got its start by engineering product solutions for some of the biggest technology companies in the world, and we haven't lost sight of our roots. These solutions have evolved to inspire our standard product lines. Today, we continue to leverage our collective experience in the technology industry to not only design, engineer, and manufacture new solutions for a growing portfolio of the world's largest companies, but to optimize and enhance our existing offerings.

Every week, we develop custom solutions to solve customer challenges.

After all, we are Born to Innovate.

Ready to meet your needs.

We offer the energy and flexibility of a startup while delivering long-term solutions based on a lifetime of professional experiences. We maintain robust relationships with various sourcing, manufacturing, and logistics partners to complement our strong in-house engineering and manufacturing capabilities. As a result, we're able to stay nimble with supply chain operations, adapt to changing market conditions, and effectively serve customers across the globe.

We're different, and we think that's a good thing.

Innovation is the driving force for all of us at Enconnex, from our distinctive products and solutions to our high-touch customer experience. Our customers say we're incredibly responsive and communicate well. We care about our customers and want to do everything we can to make them more successful. We set out to continuously improve the status quo and create better ways to do things.

Innovation. Everyday.

Over the past few years, we've designed, engineered, and produced hundreds of innovations for the data center and IT infrastructure industry. These innovations vary in complexity, application, and scale. They're not limited to any one type of project, company, or even industry.

When a customer comes to us with an unconventional or unique request, we'll explore it because innovation is at the forefront of everything we do.

We focus on you.

Our global team is stacked with talented individuals who have spent years working for the giants of the technology sector. We're dedicated to offering high-touch customer service, committed to being easy to work with, and very responsive. We're just plain nice people.

Hundreds of years of experience.

Collectively, we have a wealth of experience solving problems for key technology industries, including:

- › Hyperscale
- › Colocation
- › Enterprise
- › Engineering Labs
- › Enterprise Edge
- › Government and Defense

Quality and value.

Enconnex solutions are high-quality and high-value lines encompassing the core components of data center infrastructure, including server racks and cabinets, network cabling, containment, PDUs, UPS', power cords, and edge computing solutions. Our volume buying for global companies allows us to pass savings along to you.

Blue sky thinking. On demand.

We love a challenge. And we'd like to work on one for you. Tell us about your technology problems and issues. We specialize in developing innovative solutions to solve problems and make you more successful.

Our specialty: innovation-inspired products and solutions.

Do you have a challenge or problem with your technology? We can help you find a solution that maximizes business productivity and efficiency.

**Our experienced team of innovators is at your service.
Just reach out, and we'll get to work.**

The right choice for your next project, build-out, order, or custom product.
