

Data center and IT infrastructure products and solutions tailored to your business.

Our Products in the Data Center

Enconnex got its start by developing custom products for some of the biggest technology companies in the world. We built on that success and our data center background and experience to engineer, manufacture, and provide complete lines of data center and IT infrastructure products. We continue to develop hundreds of custom solutions every year. After all, we were Born to Innovate.

Our Newest Products

The right products. In stock.

We specialize in having the products you need for your operation. Server racks & cabinets, power, containment, network cabling, and more.

From our 80,000 square foot manufacturing facility and warehouse in Reno, NV, to our warehouses and locations in Amsterdam, China and India, we have the inventory available and logistics expertise to get you what you need when you need it.

The right quality and the right price.

Enconnex IT infrastructure products are high-quality and high-value lines encompassing the core components of data center infrastructure, including server racks and cabinets, network cabling, containment, PDUs, UPS', power cords, and edge computing solutions. Our volume buying for global companies allows us to pass savings along to you.

The right focus. On you.

Our global team is stacked with talented individuals who have spent years working for the giants of the data center industry. We're dedicated to offering high-touch customer service, committed to being easy to work with, and very responsive. We're just plain nice people.

The right experience.

Collectively, we have hundreds of years of experience solving problems for key data center and IT industries including:

- > Hyperscale
- > Colocation
- > Enterprise
- > Engineering Labs
- > Enterprise Edge
- > Government and Defense

Enconnex. The right choice for your next project, build-out, order, or custom product.

Contact us today. We think you'll be pleasantly surprised.
