

EMT Set-Screw Connectors and Couplings

Set-screw style fittings are designed for quick and secure connections in electrical metallic tubing (EMT) installations. These fittings provide reliable mechanical protection and maintain electrical continuity in indoor environments.

Features & Benefits:

- Made from zinc-plated steel
- Superior corrosion resistance
- Application:
 - Connectors: Join EMT conduit to steel outlet boxes, load centers, or other metal enclosures.
 - Couplings: Connect two sections of EMT conduit.
- Indoor use recommended.
- UL Listed
- Meets or exceeds ANSI/UL 514B and CSA 22.2 No 18.3-12

EMT Set-Screw Connectors

Part Number	Trade Size		Approx. Weight Per 100 Pieces	
	(in.)	(mm)	(lbs.)	(kg)
MAR-EMTSSC12	1/2	16	7.8	3.5
MAR-EMTSSC34	3/4	21	11	5
MAR-EMTSSC1	1	27	19	8.6
