

## Schedule 40 Rigid PVC Couplings

Marathon Schedule 40 PVC couplings provide a secure, aligned connection between conduit runs using a molded center stop. Offered in sizes from ½ to 6 in., they support standard installation needs with listed options available.

### Features and Benefits

- **Center-stop design:** Ensures proper conduit engagement for reliable alignment.
- **Full trade-size range:** Covers ½ to 6 in. to reduce special-order requirements.
- **Jobsite-matched pack quantities:** Simplifies stocking and staging on projects.
- **Available ETL listings:** Supports compliance where listed fittings are required.

### Schedule 40 Rigid PVC Couplings – Center Stop
