

Schedule 80 Elbows

Marathon Schedule 80 elbows add durability for high-load environments while maintaining smooth directional change. Offered in 1¼ to 5 in. sizes.

Features and Benefits

- **Thicker Schedule 80 walls:** Improves impact resistance and longevity.
- **Plain-end solvent-weld joining:** Keeps installation consistent with Schedule 40 systems.
- **Large-size availability:** Supports heavy-duty conduit runs.

90° Schedule 80 PVC Elbows – Plain End, Standard Radius
