

Threaded Rods

Marathon Threaded Rods are engineered for strength, adaptability, and performance across a wide range of construction, industrial, and mechanical applications. With continuous threading and durable construction, they deliver unmatched versatility and reliability wherever secure fastening and structural support are required.

Meets ASTM-A307 requirements for threaded fasteners.

Features and Benefits:

- **Continuous Threading:** Full-length threads allow nuts and hardware to be positioned and tightened anywhere along the rod for flexible assembly.
- **Cut-to-length Flexibility:** Easily field-cut to the exact length needed to reduce waste and speed installation.
- **Precise Adjustment:** Fine height, alignment, and leveling control for hangers, trapeze systems, strut, and other supported installations.
- **Versatile Applications:** Commonly used for anchoring, suspension, bracing, and general fastening across commercial and industrial jobs.
- **Heavy-duty Performance:** Suitable for high-load applications when properly specified, especially where standard bolts are too short or lack required engagement.

Product Name

Part Number	Thread Size	Length	Diameter	Weight	Load Capacity	Material	Finish
	(in.)	(in.)	(in.)	(lb.)	(lb.)		
MARTR-1/4X120-ZN	1/4"-20	120	0.250	1.2	1908	Steel	Zinc
MARTR-3/8X120-ZN	3/8"-16	120	0.375	2.8	4650	Steel	Zinc
MARTR-1/2X120-ZN	1/2"-13	120	0.500	5.1	8514	Steel	Zinc
